

**HEAVY INDUSTRIAL NORTH**

# Suppliers and Partners

Evolution Motion Solutions Heavy Industrial encompasses everything required to design, build, maintain, and optimize hydraulic systems. We provide a wide array of value-added services that include locally performed certified repairs and industry-leading hands-on training. With over 80 years of industry experience and technical expertise in hydraulics, electronics, drives, controls, and lubrication, we inspire customers to do more than they ever thought possible.

## Evolution Systems

- Custom-engineered hydraulic, pneumatic, and automation systems.
- Designed with manufacturability and serviceability principles.
- Lowest total cost of ownership and quickest turnaround times.
- ISO 9001:2015 and AS 9100 certified

## FLUID POWER

Pumps  
Motors  
Valves  
Filters  
Cylinders  
Thermal Management  
Accumulators  
Hydraulic Power Units (HPUs)  
Fluid Diagnostics  
Special Components & Accessories

## CONTROLS

Variable-Frequency Drives  
Panel Builds  
Machine Safety  
Automatic Identification  
Custom Cable Configurations  
Measurement Technology  
PLCs & HMIs  
Power Supply Distribution  
Sensing Technology  
Servo Drives & Controls

## CUSTOM SYSTEMS

Custom Solutions  
Engineering & Design  
Custom HPUs  
High-Pressure Systems  
Custom Test Systems  
Electrical Control Panels  
Automation Control Systems  
Custom Assemblies  
Total Quality Leadership  
Testing & Inspections  
Quality Standards

## VALUE-ADDED SERVICES

Product Modifications  
Product Kitting  
Private Labeling  
Special Packaging  
Evolution Inventory Management  
24/7 Support  
Machine Start-Up & Commissioning  
Strategic Sourcing  
Factory Trained Repair Technicians  
Customer Service  
Hands-On Training  
Aftermarket Programs  
Shipping/Freight Consolidation

## SERVICE & REPAIR

Conversions  
Emergency Repairs  
Exchange Programs  
Inspection & Reporting  
Remanufactured Products  
Reset Components to Factory Specs

## HANDS-ON TRAINING

Basic Hydraulic Principles  
Hydraulic Pressure Control  
Hydraulic Cylinder Principles  
Filtration Basics  
Troubleshooting Principles  
Load Control  
Directional Control of  
Cylinders and Motors  
Pump Cavitation Basics  
Sequence Valves  
Hydraulic Motor Principles  
Pressure Compensated Pump Basics  
Pump Unloading

## Locations
